Re: Update to the WRS Health System

WRS Health is proud to announce the release of a new update to the system. Below is an explanation of the new updated item.

ITEMS IN THIS RELEASE

Added Adjustment Types in Post Payment Screen

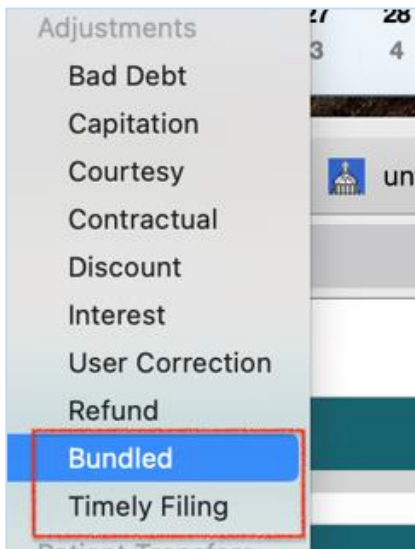

Bundled and Timely Filing Adjustment Types in Post Payment Screen

WRS has added both **Bundled** and **Timely Filing** adjustment types, which can be viewed in the Post Payment Screen.

Bundled adjustment – This type is used to adjust a CPT Code denied as bundled service.

Bundling, or code bundling, involves putting multiple healthcare services under one billing code. Claims are "**bundled**" when a payer refuses to pay for two separate services a practice has **billed**. Instead, it groups, or bundles, the two charges and pays only one, smaller fee.

Timely Filing adjustment – This type is used to adjust a CPT Code or a claim denied due to timely submission. A **timely filing** limit is the timeframe within which a **claim** must be submitted to a payer.
