Re: WRS Health Virtual Classroom Announcement

New! WRS Health Virtual Classroom

WRS Health is proud to bring our users a new tool to help address all your training and e-learning needs. Our new Virtual Classroom can be accessed under WRS>Support>Training and it offers a host of benefits:

Comprehensive Courses— Full length courses that feature video, written, and printable content will give you an in-depth knowledge of workflow essentials, ability to track comprehension, and print certificates.

Personal Tracking - Individualized login allows you to track your progress and to pick up where you left off on your coursework.

Patient Intake
SEARCH

COURSE STATUS: IN PROGRESS ▶

When correctly done, the information collected during the Patient Intake process establishes the foundation needed for the successful completion of several other workflows. The financial health of your practice and your patients' level of satisfaction is determined, in part, by this initial interaction.

Practice Roles Required for Attendance

- Front Desk Staff

WRS Modules Covered

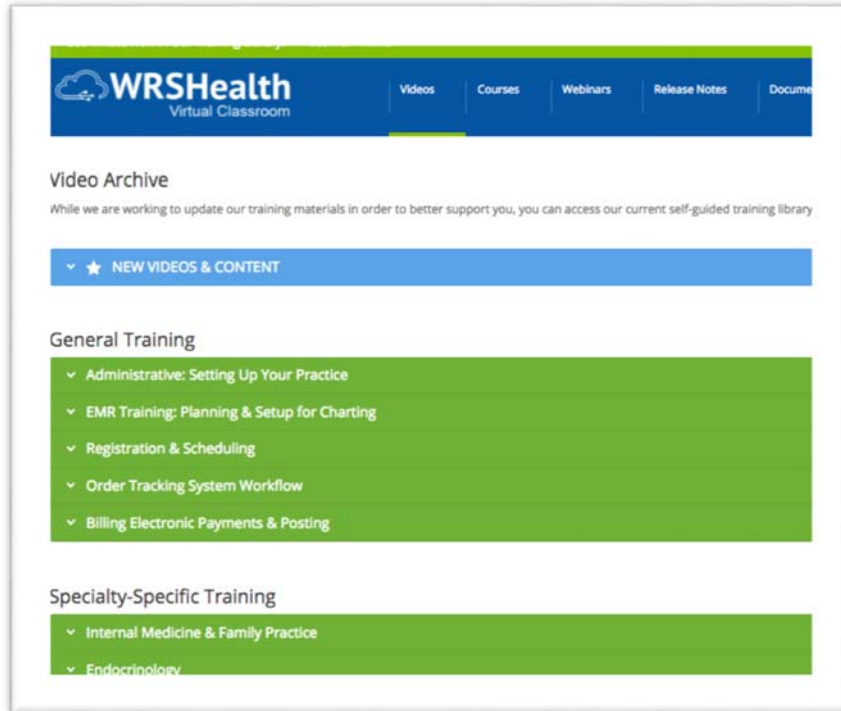

COURSE PROGRESS

COURSE NAVIGATION

- ▶ The Importance of Capturing Complete Information
- ▶ Opportunities to Capture Patient Information
- ▶ Essential Types of Patient Information
- ▶ Managing Patient Documents
- ▶ Leveraging the Patient Portal
- ▶ Summary & Final Quiz

Optimized Video Library - A reorganized library of our current training videos allows you to quickly find the resources you need.

Continual Updates - New content will be added to the Virtual Classroom monthly. In the coming months, look for additional courses and all-new system guides.

Departmental Directory - Find the right contacts more easily with use of a new WRS Department Directory. Important names and contact information are now organized to save you time.
