Re: Updates to the WRS Health System (cumulative)

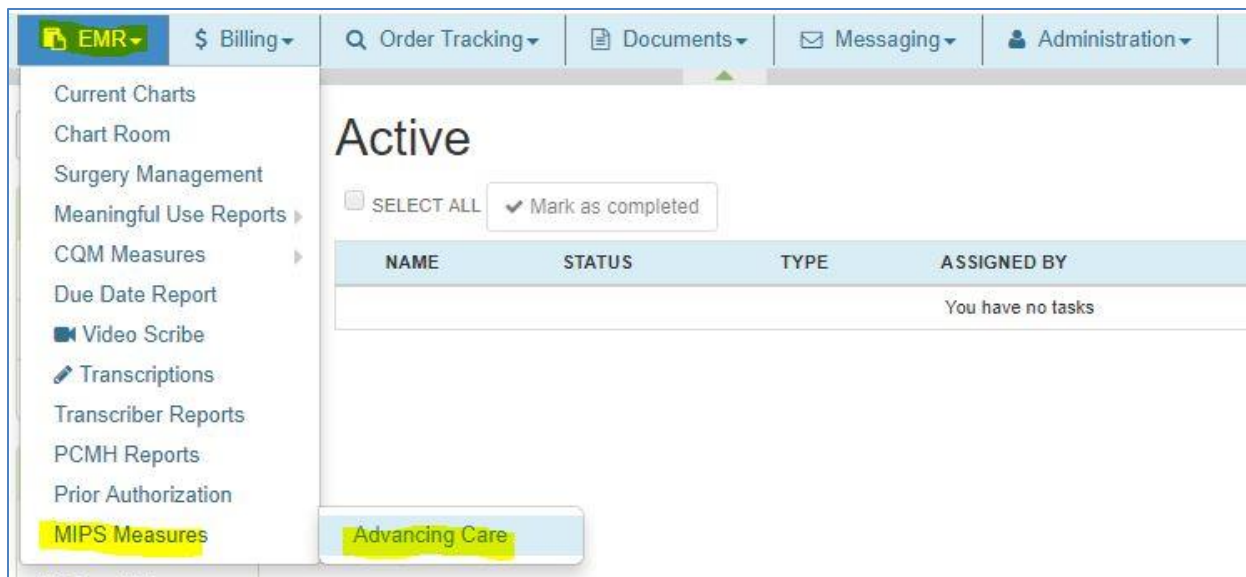

WRS Health would like to take this opportunity to announce the release of new functionality. We hope these items add efficiency to workflow and help your practice reach its patient care, regulatory, operational and financial goals.

IN THIS RELEASE...

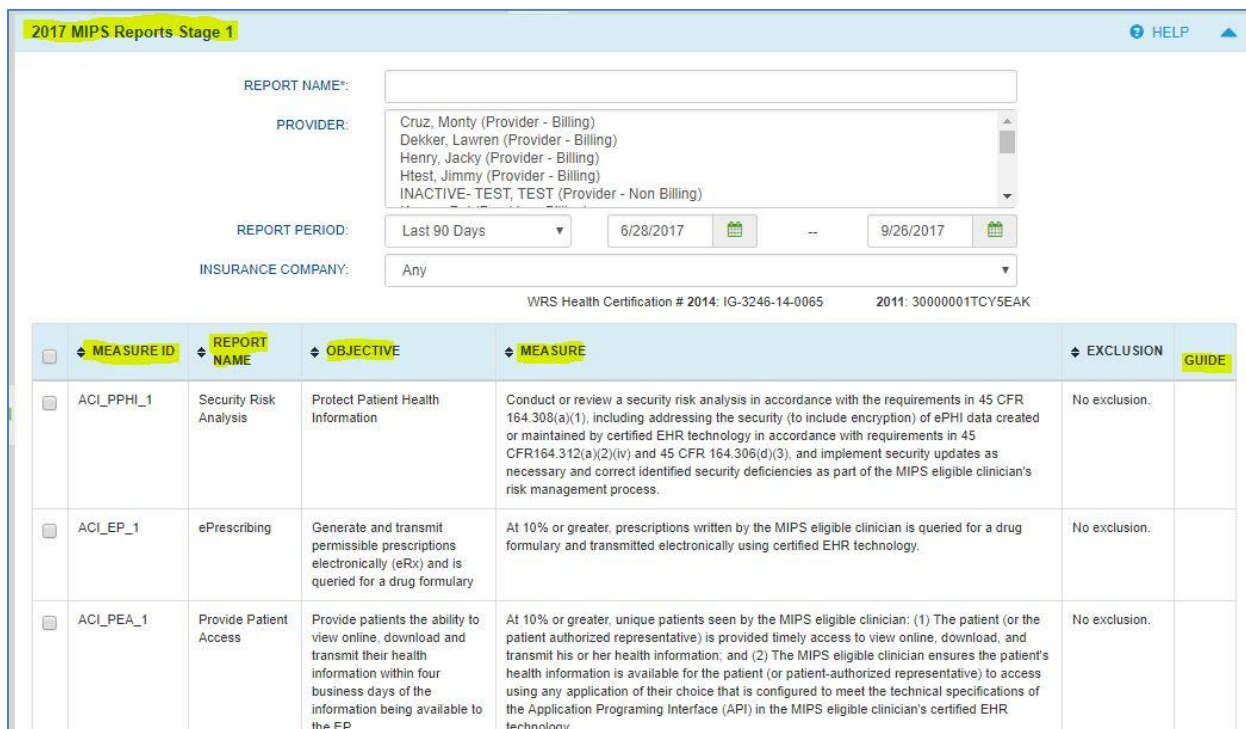

<u>MIPS: Advancing Care Reporting Module</u>	<u>MU/MIPS Patient Registration Demographic Changes</u>
<u>Updated ICD-10 Code Set</u>	<u>Clinical Reports User Permission</u>

MIPS: ADVANCING CARE REPORT MODULE

The reporting module for the **Advancing Care Category** for **MIPS** is accessible to all practices. The Module can be accessed under **EMR>MIPS Measures>Advancing Care:**

This Module works like our previous **MU Measures Report**. All measures include **Objective, Criteria & Benchmark** along with individual **Measure Guide** documents (link). Each **Measure Guide** identifies the **Measure, Denominator & Numerator Population** and gives an explanation of the workflow required to ensure compliance for that measure. Simply click on each **Measure Guide** to view them.

Running the Report - Enter a **Report Name** and select the **Provider**. Indicate the **Report Period** dates for attestation and select the **Insurance Company** (patient population) being captured. [Note that for MIPS reporting, *all* patients seen are reported to CMS. The **Insurance Company** should be set to **Any**.] Check each of the measures to be included and press **Save Report**.

2017 MIPS Reports Stage 1 HELP

REPORT NAME: MIPS 2017

PROVIDER:

- Test, Doc (Provider - Billing)
- Test, Nathan (Provider - Non Billing)

 Additional gender category/(or other), please specify
 Decline

UPDATED ICD-10 CODE SET

On September 30, 2017, an updated ICD-10 Codeset will be moved to the live system. This new Codeset includes code additions/subtractions directly from CMS. These codes can be used after October 1, 2017.

CLINICAL REPORTS USER PERMISSION

A new permission to disable user access to MU, MIPs and other Compliance reporting functions has been added. To disable a user's access to these functions, uncheck **Administration>Resource Management>User Permissions>EMR-Clinical Reports**.

Clinical Reports ?	Check for Yes <input checked="" type="checkbox"/>
