Re-Designed Medications Page

WRS Health is pleased to announce the July 30, 2021 release of our re-designed Medications Page. This release is in compliance with migration to the National Council of Prescription Drug Programs (NCPDP) SCRIPT Standard v2017071.

The re-designed “Medications Page” has a more streamlined look with “Current Medications”, “Patient Reported Medications”, and “Previous Prescriptions” displayed in the right-hand side. All other tabs are on the left-hand side. “Get Eligibility and Drug History” and “Medication Transactions” buttons are at the bottom of the screen.

MEDICATIONS/ALLERGIES

Test, Wrs
35 year old male
DOB: Sep 1, 1987
Tel: (912) 994-6808
Clinical Date: Jul 27, 2021 to Jul 27, 2021

Get Eligibility and Drug History Medication Transactions

*Disclaimer: Certain information may not be available or accurate in this report, including over-the-counter medications, low cost prescriptions, prescriptions paid for by the patient or non-participating sources, or errors in insurance claims information. The provider should independently verify medication history with the patient.

Add Prescription / Medication Page View

We have also changed the layout of the “Add Prescription / Medication” Page for a more compact look. “Qualifier” has been renamed to “Unit of Measure” in compliance with SureScripts. Adding an ICD code will also trigger a Secondary ICD Code box to appear in case a user needs to add another code.

Current Note Prescriptions

No current note prescriptions found.

Add Prescription / Medication

Drug: Adderall 15 mg tablet

Dose:

Route: oral

Every: hours times/day other freq/interval

Retail Pharmacy Search View

Pharmacy Type - When doing a “Pharmacy Search”, users can now filter results by “Retail”, “Mail Order” and “Specialty Pharmacy”. “Specialty Pharmacy” focuses on high cost, high touch medication therapy for patients with complex disease states. All services offered by the pharmacy will be displayed.
